

Job Title: Analyst

Department: Pricing & Analytics

Job Summary

The Analyst will carry out technical analysis and monitoring of MUA's portfolio of business for both Mauritius and the East African entities. The Analyst will also assist in providing guidance to the Group Technical, Operational and Client Management teams with relevant facts and proposed actions to optimise profitability of the Group.

Main Responsibilities

- Analyse the Group portfolios' profitability by line of business, product and other relevant specified categories.
- Identify reasons for deviation from expected results for all lines of business to guide Technical and Operational teams and make suitable recommendations.
- Monitor that adherence to the Underwriting Risk Appetite and Delegated Authorities is respected.
- Provide analytical input in projects from a portfolio management perspective.
- Keep up to date with competitor information and market trends to optimize market share and profit.
- Monitor Monthly GWP Portfolio Performance.
- Monitor the impact of Commercial Pricing Actions.
- Assist the Pricing team with relevant reports and data requirements.
- Prepare monthly Key Indicators.
- Produce regular management dashboards.
- Design Reporting needs as per Management requirements.

Job Requirements

- Degree in Mathematics/Statistics/Actuarial Science or other related.
- Progress on Professional Qualification related to Actuarial/Data Science/Insurance/Financial Services would be an advantage.
- Minimum of 1 Year.
- Microsoft Office Tools including advanced knowledge in Excel.
- Analytical acumen.
- Knowledge of Insurance, Reinsurance
- Fluency in written and spoken English and French
