

MUA - DEFENSIVE LIFE INSURANCE FUND

31 May 2025

INVESTMENT OBJECTIVE AND STRATEGY

The Fund seeks to achieve better returns than the Savings Rate offered by commercial banks whilst seeking to preserve capital. Policyholders can expect the value of their portfolio to remain fairly stable in periods of volatility. It aims to provide policyholders with exposure to a diversified portfolio of high quality local and foreign financial instruments which include government and corporate bonds, secured mortgages and fixed deposits with banks and licensed financial institutions which have a low risk of interest and capital defaults. Interest rate fluctuations will be controlled by holding a selection of fixed and floating interest-bearing instruments. The Fund may also have a small exposure to liquid local equities which satisfy the yield requirements of the fund.
